Greta Thunberg

Greta Thunberg was born on the third of January 2003 in Stockholm, Sweden. She is a Climate Activist which means she is fighting against Climate change. She has achieved many goals such as...! In March 2019 Climate Campaigners inspired by Greta had their first global strike for Climate Action with over 1.6 million people taking part. Greta achieved her goals by standing up for what she believed in and letting the world know we need a change. Greta has Asperger Syndrome (which means she has trouble socializing) but she calls this her super power. I find her inspiring because she is helping to fight Climate Change and getting loads of people to help her. If I met her I would say well done and what can younger people do to help. (also hi). I think she is brave, inspirational, confident, focused and...
