

# Norah Patten

Norah Patten was born in 1964 at Ballina, Co. Mayo

Norah is best known for being Ireland's first astronaut.

She has achieved loads including completing astronaut training.

I find her really inspiring because I want to be an astronaut when I grow up.

Norah must be really brave and intelligent to complete her astronaut training.

If I could talk to Norah I would say, 'How can you become an astronaut?' and loads of other things.
