RETNS Board of Management Meeting – 13th March 2023

Teaching and Learning

The school will receive its annual ICT grant due in April. The Board approved the purchase of an all-in-one PC including Windows 11 Pro for the support room and an Interactive panel for 6th class.

One application for Assistive Technology was granted by the Department.

Development Plan

The Development Committee will be working during 2023 on a new development plan for the school. The idea of the development plan is to highlight specific areas of development that the school requires and to budget/fundraise accordingly for them. This may include enhancements to the school building and grounds, teaching and learning equipment, investment in sport etc. Further updates will be provided in due course.

Parking Safety

A senior Engineer with the Traffic Section of Dun Laoghaire County Council visited the school on Monday, 6 March to assess the parking situation outside the school. As a result of this, we hope the Council will undertake work to improve safety outside the school. The school's Green Team also conducted a walkability survey with the Green Schools' Traffic Officer. Their recommendations will be forwarded to the Council.

The BoM also considered some routine matters, which for reasons of confidentiality are not included in this report. The next Board Meeting is on Monday 13th March 2023.
